CONMIGO® ULTI™ Messenger Bag Lets Travellers Take a Seat
New Travel Bag Features Built-in Seat for Added Comfort and Security

Laguna Niguel, CA, August 19, 2021 - CONMIGO® LLC today announces the launch of its ULTI™ messenger bag, a full-featured messenger style travel bag with a multi-purpose pull-out seat cushion that also serves as a detachable portfolio/TSA-approved electronics sleeve.

"I designed the sleeve/cushion for added comfort and security. Just open the zippered rear compartment, pull out the seat and place the bag under your legs. The two attached cushion straps keep the bag secured under your own weight," says Bernadine Cruz, CONMIGO's founder and designer. The straps can also be removed to use the sleeve/cushion as a protective portfolio. See this [video](#) of the CONMIGO ULTI bag in action.

The CONMIGO ULTI bag was designed by Bernadine Cruz, DVM, a seasoned traveler and renowned companion animal veterinarian. "I love to travel but hate being disorganized and uncomfortable. Feeling safe while on the road is very important to me. I could never find a carry-on that met my needs or style, so I designed one. A perfect alternative to a backpack, around the block or around the world, now you can travel smarter and upgrade the comfort of your seat with the 'ULTI'-mate messenger bag."
